Part II Organizational Action Attach additional statements if needed. See back of form for additional questions.

14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ▶ Effective as of the close of business on August 17, 2020, shares of ProShares Ultra S&P500 underwent a 2:1 share split. The split decreased the fund's price per share by a factor of 2 with a proportionate increase in the number of shares outstanding. As a result, shareholders received 2 post-split shares for every 1 pre-split share held. Post-split shares were priced 0.5 times lower than the net asset value ("NAV") of a pre-split share. Shares began trading at post-split prices on August 18, 2020.

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ▶ Each post-split share has a tax basis equal to 0.5 times the tax basis of a pre-split share (50% of old basis).

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ▶ Post-split (new) basis per share = pre-split (old) basis per share times 0.5. For example, a shareholder with 100 pre-split shares with a basis of \$10.00 per share at the close of business on August 17, 2020, would received 200 post-split shares with a basis of \$5.00 per share. While the basis per share is impacted, the basis of the shareholder's total investment remains unchanged. Further, because the NAV per share decreases by a factor of 0.5, the value of a shareholder's investment is not impacted by the share split.

Part II Organizational Action *(continued)*

17 List the applicable Internal Revenue Code section(s) and subsection(s) upon which the tax treatment is based ▶ _____
In general, a shareholder's aggregate tax basis in his or her shares immediately prior to the share split should be allocated in proportion to the increased number of shares under IRC sections 358, 368 and 354.

18 Can any resulting loss be recognized? ▶ None

19 Provide any other information necessary to implement the adjustment, such as the reportable tax year ▶ The reportable tax year is 2020.
