PROFUNDS
GROUP

Each Short or Ultra ProShares ETF seeks a return that is either 300%, 200%, -100%, -200% or -300% of the return of an index or other benchmark (target) **for a single day**. Due to the compounding of daily returns, ProShares' returns over periods other than one day will likely differ in amount and possibly direction from the target return for the same period. Investors should monitor their ProShares holdings consistent with their strategies, as frequently as daily. For more on correlation, leverage and other risks, please read the prospectus.

Investing involves risk, including the possible loss of principal. Futures and options involve substantial risk of loss and are not suitable for all investors. ProShares entail certain risks, including, in all or some cases, aggressive investment techniques (futures, options, forward contracts, swap agreements or similar instruments), inverse and imperfect correlation, leverage, market price variance and short sale risks. These risks may pose risks different from, or greater than, those associated with a direct investment in the securities underlying the funds' benchmarks, can increase volatility, and may dramatically decrease performance. ProShares are non-diversified and may be more susceptible to single-issuer risk than a more diversified fund. **There is no guarantee that any ProShares ETF will meet its investment objective.** Please see the prospectus for a more complete description of these risks.

Carefully consider the investment objectives, risks, charges and expenses of ProShares before investing. This and other information can be found in the prospectus. Read the prospectus carefully before investing. For a ProShares prospectus, visit www.proshares.com and seek advice from your financial adviser or broker/dealer representative. Financial professionals should call ProShares at 866.PRO.5125. ProShares are not suitable for all investors. ProShares are distributed by SEI Investments Distribution Co. "ProFunds Group" includes ProFunds mutual funds and ProShares ETFs. ProShares are distributed by SEI Investments Distribution Co. which is not affiliated with ProFunds Group or its affiliates.

Ultra ProShares seek to double or triple the daily performance of their applicable indexes.
