- The Fund's Swap Agreements are not accounted for as hedging instruments under ASC 815.
- b Agreements may be terminated at will by either party without penalty. Payment is due at termination/maturity.
- c Reflects the floating financing rate, as of May 31, 2023, on the notional amount of the swap agreement paid to the counterparty or received from the counterparty, excluding any commissions. This amount is included as part of the unrealized appreciation/(depreciation).
- d The Fund discloses amounts due to the Fund from the counterparty (unrealized appreciation on swap agreements) at period end as an asset on its Statement of Assets and Liabilities. Amounts due to the counterparty from the Fund (unrealized depreciation on swap agreements) are disclosed as a liability on its Statement of Assets and Liabilities. The Fund presents these amounts on a gross basis and does not offset or "net" these amounts on its Statement of Assets and Liabilities.
- e Represents the "uncollateralized" amount due from or (to) the counterparty at period end. These amounts could be due to timing differences between the movement of collateral in relation to market movements, or due to agreement provisions allowing minimum "thresholds" that would need to be exceeded prior to the movement of collateral. To the extent that a net amount is due from a counterparty, the Fund would be exposed to the counterparty by such amount and could suffer losses or delays in recovery of that amount in the event of a counterparty default.

- <sup>a</sup> The Fund's Swap Agreements are not accounted for as hedging instruments under ASC 815.
- b Agreements may be terminated at will by either party without penalty. Payment is due at termination/maturity.
- Reflects the floating financing rate, as of May 31, 2023, on the notional amount of the swap agreement paid to the counterparty or received from the counterparty, excluding any commissions. This amount is included as part of the unrealized appreciation/(depreciation).
- d The Fund discloses amounts due to the Fund from the counterparty (unrealized appreciation on swap agreements) at period end as an asset on its Statement of Assets and Liabilities. Amounts due to the counterparty from the Fund (unrealized depreciation on swap agreements) are disclosed as a liability on its Statement of Assets and Liabilities. The Fund presents these amounts on a gross basis and does not offset or "net" these amounts on its Statement of Assets and Liabilities.
- e Represents the "uncollateralized" amount due from or (to) the counterparty at period end. These amounts could be due to timing differences between the movement of collateral in relation to market movements, or due to agreement provisions allowing minimum "thresholds" that would need to be exceeded prior to the movement of collateral. To the extent that a net amount is due from a counterparty, the Fund would be exposed to the counterparty by such amount and could suffer losses or delays in recovery of that amount in the event of a counterparty default.
- In order to facilitate the daily valuation of these swap transactions as of close of business New York time, one or more financial products traded on a U.S. exchange are used as the reference entity as a surrogate for the respective underlying index for the purposes of both daily valuation calculation as well as final settlement of the swap.

- <sup>a</sup> The Fund's Swap Agreements are not accounted for as hedging instruments under ASC 815.
- b Agreements may be terminated at will by either party without penalty. Payment is due at termination/maturity.
- Reflects the floating financing rate, as of May 31, 2023, on the notional amount of the swap agreement paid to the counterparty or received from the counterparty, excluding any commissions. This amount is included as part of the unrealized appreciation/(depreciation).
- d The Fund discloses amounts due to the Fund from the counterparty (unrealized appreciation on swap agreements) at period end as an asset on its Statement of Assets and Liabilities. Amounts due to the counterparty from the Fund (unrealized depreciation on swap agreements) are disclosed as a liability on its Statement of Assets and Liabilities. The Fund presents these amounts on a gross basis and does not offset or "net" these amounts on its Statement of Assets and Liabilities.
- e Represents the "uncollateralized" amount due from or (to) the counterparty at period end. These amounts could be due to timing differences between the movement of collateral in relation to market movements, or due to agreement provisions allowing minimum "thresholds" that would need to be exceeded prior to the movement of collateral. To the extent that a net amount is due from a counterparty, the Fund would be exposed to the counterparty by such amount and could suffer losses or delays in recovery of that amount in the event of a counterparty default.
- f Certain underlying component disclosures related to this index may be found on the website at www.proshares.com/media/FTSE30-Year\_TIPS\_May.pdf

- <sup>a</sup> The Fund's Swap Agreements are not accounted for as hedging instruments under ASC 815.
- b Agreements may be terminated at will by either party without penalty. Payment is due at termination/maturity.
- Reflects the floating financing rate, as of May 31, 2023, on the notional amount of the swap agreement paid to the counterparty or received from the counterparty, excluding any commissions. This amount is included as part of the unrealized appreciation/(depreciation).
- d The Fund discloses amounts due to the Fund from the counterparty (unrealized appreciation on swap agreements) at period end as an asset on its Statement of Assets and Liabilities. Amounts due to the counterparty from the Fund (unrealized depreciation on swap agreements) are disclosed as a liability on its Statement of Assets and Liabilities. The Fund presents these amounts on a gross basis and does not offset or "net" these amounts on its Statement of Assets and Liabilities.
- e Represents the "uncollateralized" amount due from or (to) the counterparty at period end. These amounts could be due to timing differences between the movement of collateral in relation to market movements, or due to agreement provisions allowing minimum "thresholds" that would need to be exceeded prior to the movement of collateral. To the extent that a net amount is due from a counterparty, the Fund would be exposed to the counterparty by such amount and could suffer losses or delays in recovery of that amount in the event of a counterparty default.
- f Certain underlying short component disclosures related to this index may be found on the website at www.proshares.com/media/Large\_Cap\_Short\_May.pdf.
- g See the Common Stocks section of the preceding Schedule of Portfolio Investments for the representative long components of the underlying reference instrument and their relative weightings.

- The Fund's Swap Agreements are not accounted for as hedging instruments under ASC 815.
- b Agreements may be terminated at will by either party without penalty. Payment is due at termination/maturity.
- c Reflects the floating financing rate, as of May 31, 2023, on the notional amount of the swap agreement paid to the counterparty or received from the counterparty, excluding any commissions. This amount is included as part of the unrealized appreciation/(depreciation).
- d The Fund discloses amounts due to the Fund from the counterparty (unrealized appreciation on swap agreements) at period end as an asset on its Statement of Assets and Liabilities. Amounts due to the counterparty from the Fund (unrealized depreciation on swap agreements) are disclosed as a liability on its Statement of Assets and Liabilities. The Fund presents these amounts on a gross basis and does not offset or "net" these amounts on its Statement of Assets and Liabilities.
- e Represents the "uncollateralized" amount due from or (to) the counterparty at period end. These amounts could be due to timing differences between the movement of collateral in relation to market movements, or due to agreement provisions allowing minimum "thresholds" that would need to be exceeded prior to the movement of collateral. To the extent that a net amount is due from a counterparty, the Fund would be exposed to the counterparty by such amount and could suffer losses or delays in recovery of that amount in the event of a counterparty default.
